Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 2, 31, 32, 35 and 36, drawn to a display command generated upon designating a CG object in a moving image classified in class 715, subclass 808 or class 345, subclass 474.
 - II. Claims 33, 34, 37 and 38, drawn to transforming the area of a CG object from a three dimensional space to a two dimensional coordinate system, classified in class 715, subclass 848.

The inventions are distinct, each from the other because of the following reasons:

Inventions of popup command generation and commands for 3D dimensional transformations are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention of a popup command related to a CG object has separate utility such as creating movement or editing operations for the object, whereas the invention of Group II executes a different kind of command involving a 3-dimensional object. See MPEP § 806.05(d). Furthermore they are directed to different search areas and each Group define inventions, which stand on their own without the other. Group I is directed to executing a command associated with a selected CG object, the command being an editing popup message command. Meanwhile, Group II involves is directed to executing a command associated with a selected object, the object being 3 dimensional.

Art Unit: 2179

2. A telephone message was left with Carl Brundidge on 8/1/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. As to the IDS, there was no IDS on record, however the examiner will consider the IDS presented as long as a translation of at least the abstract is included for each of the items.

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sara M. Hanne whose telephone number is (571) 272-4135. The examiner can normally be reached on M-F 7:30am-4:00pm, off on alternating Fridays.
